

## Kizer Energy Services

---

### Consulting Services for Oil & Gas Operating Companies Worldwide

Kizer Energy consulting services help oil & gas operating companies worldwide meet operational goals of safety, efficiency and optimal performance using proven practices, technological innovation, an experienced team, and strong project management.

Kizer Energy is an international company, executing projects in several countries, assessing local culture and capabilities, focused on improving the ability to meet operational goals. This international experience gives us an understanding of the unique challenges that, as an energy company, our clients face in maintaining reliable and safe operations.

### Oil & Gas Integrated Operational Solutions

The Kizer Energy suite of services is designed to meet the broad spectrum of oil & gas operations, including Exploration & Production, Heavy Oil Upgrading, Refining and Petrochemical. Solutions are tailored to your specific needs while adhering to operational phases within the asset lifecycle and specific local requirements.
